

## EMPLOYMENT OBJECTIVE

I would like to secure a full-time position teaching design and programming, or producing strategic creative solutions as a web interface developer. Ideally this would be in a dynamic organization where both teamwork and individual ability are valued, where the exceptional is a must, and where enjoyment of the work is always a priority.

## WORK EXPERIENCE

[Feb 2002 to Present]

Various Companies

### Freelance Web Developer, Designer & Consultant

Created tactical print and web development solutions for internet and multimedia project strategies for many clients. For example the Museum of Manitoba planetarium credits & animation series and print fundraising campaign.

[2009 – Present]

Red River College

### Instructor

Developed a new course outline to bring the website course for 2nd year graphic design students up to speed with the industry. Instructed students in CSS, XHTML, dreamweaver, flash, Actionscript 2 and design for web and new media principles. Worked with students to manage and develop their own online solutions that work with the current industry standards. Developed and delivered tutorials & lessons on learning dreamweaver and flash.

[2007 – Present]

Relish Design & Catchup New Media

### Interface Developer & New Media Designer

Designed, developed and maintained creative interactive solutions for over a hundred different clients. Serving as a front-end developer I have developed online solutions as a member of the interactive team. Worked directly with clients to manage and develop online solutions that fit their custom needs. Developed and delivered tutorials for clients to manage their own websites.

[2005 – 2006]

The FaQtory

### Interactive Developer

Successfully performed the role of designer and interactive developer for various animation projects and web site builds including the T-Rex Cafe's interactive kiosk designs. Functioned as lead AE animator during the production of various AE and Flash-based animated series for touch screen kiosks and web.

[2004 – 2005]

Farm Business Communications

### Graphic Designer

Worked as a layout artist, designed and produced various publications, ads, billboards and signage for various companies. Worked independently and as a team member with writers, editors and production staff to produce high quality magazines and newspapers.

## EDUCATION

[2001 – 2004]

Red River College

### Degree with honours – Graphic Design

### Degree – Advanced Graphic Design

Training in computer graphics, print and website design, animation, colour theory, typography, and interactive design.

[1999 – 2000]

University of Manitoba

### Fine Arts

Training in drawing, design, painting, sculpture, photography, colour theory, typography, art history.
